# IMPORTANT FACTS

- ISO 9001 Quality Management System
- ISO 10002 Customer Satisfaction Management System
- ISO 14001 Environmental Management System
- ISO 45001 Occupational Health and Safety Management System
- ISO 22000 Food Safety Management System certifications are at the application stage.
- Officially certified first-class quality products and brands are used in all Food and Service offerings.
- Guests with allergies to any food are required to inform the Guest Relations upon their check-in. Otherwise, the Hotel Management is not responsible for any problems that may arise.
- 19.05.2008 dated T.C. According to the law, it is forbidden to smoke in closed areas for general use.
- Pets are accepted at our facility for Guests staying in Bali or Hawaii Villas (up to a maximum of 5 kg dogs or cats only)
- It’s forbidden and dangerous to feed Animals or birds living on Hotel territory.
- The Hotel Management does not accept any responsibility for the shopping made in the shops (leather, photographer, silversmith, market, hairdresser, spa center etc.) in the facility and the market set up within the facility.
- The check-in time to the facility is 14:00 and the departure time from the facility is 12:00.
- Valuable items should be kept in safes in the rooms. Hotel Management does not accept responsibility in case of loss of belongings holding out of the safety box.
- Dress code may apply in some restaurants and bars in the facility.
- Air conditioning working hours are automatically adjusted by the automation system according to the outside weather conditions in order to provide maximum comfort.
- Alcoholic beverages and hookahs as well as tobacco products and alcohols are not sold to guests under the age of 18.
- Alcohol is not served to the guests with health risks.
- Preparatory work carried out during the opening and closing of the season may be delayed due to bad weather.
- Pier and beach service will start as of the opening date of the hotel.
- The hotel management reserves the right to make changes unilaterally in all service hours and types in the Factsheet in conditions that may occur due to weather conditions and similar unavailable reasons.
- The days when restaurants and bars will be closed may vary depending on weather conditions and reservation requests by the hotel management.
- Taking food out of the food units is not suitable in terms of hygiene and safety.
- In case if the sunbed is not used for a long time, the hotel has the right to take the items from the sunbeds.
- Fishing within the swimming boundaries is prohibited.
- Motor vessels cannot be used within the swimming boundaries.
- The hotel management reserves the right to make unilateral changes regarding the services and information contained in this guide.
- Measures within the scope of Covid-19 are meticulously implemented in our facility, and constant controls are provided by the Ministry and relevant organizations. All our guests are obliged to comply with the Covid measures

## ENERGY MANAGEMENT

- There is a Solar Energy System in our facility for the use of renewable energy and electricity generation.
- In our facilities, heat energy is obtained by using sunlight and a large part of the hot water need is provided by renewable energy.
- Room lighting and air conditioning are connected to the energysaver system, preventing unnecessary energy consumption.
- The garden and general area lightings of the facility are timed and energy saving is achieved by obtaining maximum efficiency from daylight.
- Energy savings are achieved by using photocell lamps in areas where there is little movement.
- Emphasis is placed on the use of energy-saving light bulbs and devices in our facilities.

## WATER MANAGEMENT

- Water Management processes have been established, their applications and follow-up are carried out.
- Waste waters are analyzed in accordance with ASAT and our facilities obtain Connection Quality Control License.
- Modern irrigation techniques are used in garden irrigation.
- Plant varieties with low water consumption are preferred in landscape planning.
- Water-saving aerators and photocell batteries are used in the faucets of the facility. Double-button reservoirs are preferred, preventing water wastage.
- Waste oils are collected and disposed of by licensed companies, their amounts are monitored and their mixing with the waste water line is prevented, and bacteria are routinely applied.
- Necessary inspections are carried out regularly in the pools and water waste is prevented.

# SUSTAINABLE TOURISM ACTIVITIES

## ENVIRONMENT AND WASTE MANAGEMENT

- "Environmental Management Training" is given to our personnel in order to create environmental awareness in our facilities.
- Waste separation is carried out in our facilities within the scope of "Zero Waste" and our facilities are certified.
- Activities are organized within the scope of "World Environment Day", "World Water Day", "World Phytosanitary Day", "International Zero Waste Day" in order to raise the awareness of our guests.
- Paper waste is prevented by communicating with stakeholders via e-mail.
- Environmentally friendly purchasing is made and local suppliers are given priority.
- An economic contribution is made by promoting the local markets, ruins, natural and historical areas in the region.
- Our hazardous and non-hazardous wastes generated as a result of facility activities are regularly sent to licensed companies for disposal and recycling.

## LANDSCAPE APPLICATIONS

- Our facility is located in the Beydağları national park. There are mainly *Pinus brutia* (red pine) native to the Mediterranean vegetation, *Ceratonia siliqua* (Carob), *Myrtus communis* (Mersin) *Citrus aurantium* (Citrus).
- By preserving the vegetation of the national park, importance was given to the use of plants with low water demand within the scope of sustainable tourism.
- Care has been taken to protect and reproduce the plant species native to the region, and these species are promoted with the shields.
- Special herbal tea presentations are made to our guests with the herbs and spices we grow.
