

DIONYSOS

" QUALITY IS NOT A COINCIDENCE "

DIONYSOS

Built on top of a jaw-dropping canyon overlooking the Bay of Kumlubük on the Bozburun Peninsula, there are panoramic sea views from virtually every perspective. The buildings blend naturally with their surroundings and are spread out in village style across the land with a choice of rooms, cottages and private pool villas. Viewed from the sea the hotel appears to have belonged here for centuries. Having lovingly built Dionysos, our aim is to continually refine and improve it, offering to share our life style with you.

Bozburun Peninsula

The craggy mountainous Bozburun Peninsula is the real hidden Turkey. Almost a living museum, it provides an insight into life in rural Turkey. Even in peak of summer, its beaches and interiors remain peaceful. It has an incredible amount to offer, with wonderful diverse scenery and a colourful culture.

Heavily wooded mountains plunge down to a scattering of coastal villages and beaches. Remote ancient sites such as Amos,

Loryma and Knidos wait to be explored.

This region provides an opportunity to experience a taste of the real, rural Turkey.

" Live like a God in the lap of luxury on the Dionysos Estate. The sun comes up early over Kumlubuk Bay, so you can catch some rays well before 7am. "
