## Always on the trail of nature...

This is a story that begins in the most beautiful corner of the Gulf of Gokova, specifically at Hapimag Sea Garden Resort Bodrum located on the blue coast of the Aegean...

Our passion for food and produce always inspired us. That is why we collaborate with local farmers to bring you natural delicious produce grown in the fertile generous soil of the Aegean.

We believe that local produce are healthy and delicious, That is why we prepare the seasonal produce we harvest from our soil using traditional methods. Furthermore, we use our cold-pressed olive oil, grown in our own garden, in the preparation of our vegetables and spices that are also grown in our garden.

As “Sea Garden Gastro Team”, we invite you to experience our boutique products in order to discover the fertility of these lands without leaving this unique geography.

This is our secret; We do our job with love.
